

## Nez Perce Riparian & Livestock Feeding Area (Nez Perce CD)

Program	Animal Feeding Operations (AFOs)
Lead Implementer	Nez Perce Conservation District
Funders	Idaho Soil and Water Conservation Commission, Private Party, U.S. Natural Resources Conservation Service
Project Primary Contact	Lynn Rasmussen (npswcd@co.nezperce.id.us)
Project Stage	Completed
Duration	2001 - 2006

### Agricultural Projects & Practices ➤ Animal Feeding Operations (AFOs)

The Nez Perce Riparian and Livestock Feeding Area Project began in the year 2001 and was completed in 2006. The Nez Perce SWCD obtained funds from the Idaho Water Quality Program for Agriculture. The WQPA project is administered by the Idaho Soil Conservation Commission. The AFO project integrated with the USDA-Natural Resource Conservation Service's Public Law 566 small watershed program to provide financial incentives to landowners for the installation of conservation practices in the Tammany, Bedrock, and Lapwai Creek watersheds of the Clearwater River subbasin. The installation of BMPs in these watersheds will reduce sediment, bacteria, and nutrients in the stream.

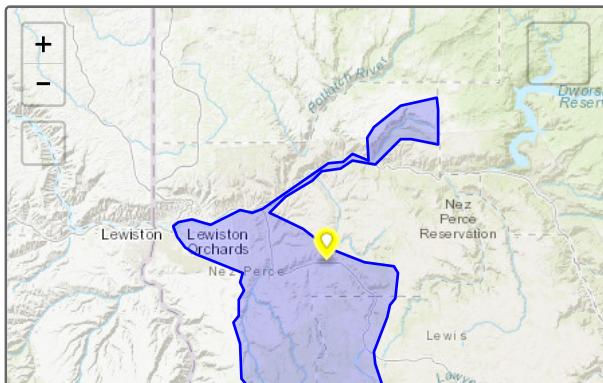

#### Key Accomplishments

- Access Road (linear feet): **8,560.00 lf**
- Channel Vegetation (linear feet): **4,630.00 lf**
- Critical Area Planting (acres): **1.00 acres**
- Dike (linear feet): **1,300.00 lf**
- Diversion (linear feet): **512.00 lf**
- Fence (linear feet): **15,183.00 lf**
- Grade Stabilization Structure (number): **5**
- Heavy Use Area Protection (number): **6**
- Irrigation - New (number): **1**
- Pasture & Hayland Planting (acres): **164.80 acres**
- Pest Management (number): **4**
- Pipeline (linear feet): **1,523.00 lf**
- Pond (number): **1**
- Range Planting (acres): **948.90 acres**
- Roof Runoff Structure (number): **1**
- Spring Development (number): **2**
- Tree/Shrub Establishment (number): **16**
- Waste Management System (number): **4**
- Water Well (number): **3**
- Watering Facility (number): **12**

#### Project Themes

- Agricultural Lands
- Healthy Watersheds

#### Location

Figures 2 and 3: Stream Area Prior to Treatment

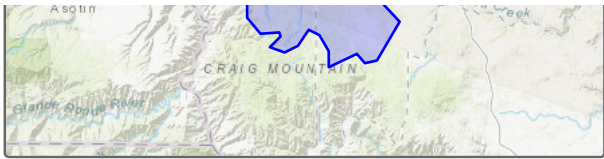

Figure 4: Livestock Feeding Operation (in center of photo).

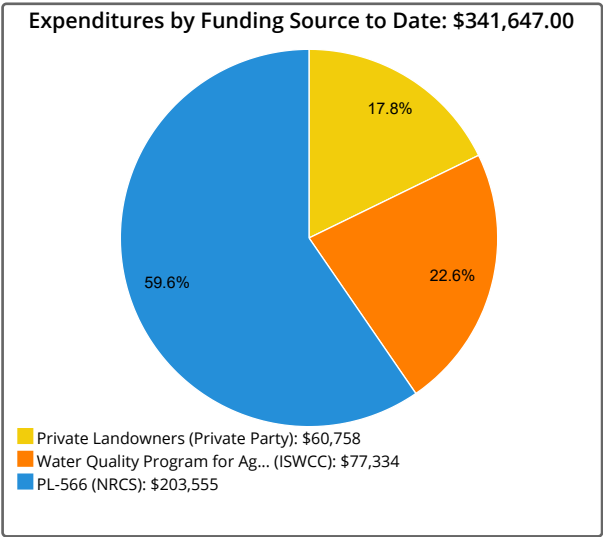

The livestock feeding operation was relocated from the stream to a site on top of a ridge.
